Description

LionChief Plus: an exciting and innovative twist in classic Lionel locomotives

Just like the diesel that forever changed the railroads, the LionChief Plus FT is ready to revolutionize power on your layout! Each set features a powered and nonpowered locomotive. Both units feature smoke, an ElectroCoupler and directional lighting!

Set include

- Power A Unit
- Non-Powered A Unit

Powered Unit Features

- User selected operational modes: Conventional AC transformer control mode or LionChief Plus wireless remote control with AC or DC power
- On/off switches for sound, smoke and control mode
- **RailSounds RC** sound system with diesel revving and background sounds, horn, bell, and user-activated announcements
- Adjustable volume (controlled by remote only)
- Dual maintenance-free motors

- Constant speed control to maintain a steady speed at a crawl or full speed and everything in between regardless of track conditions or load
- Lighted cab interior with figures
- Traction tires

Both Unit Feature

- **ElectroCouplers** on front and rear (controlled by the LionChief remote only)
- Operating directional headlights
- Fan-driven smoke
- Smoke output from four stacks
- Die-cast metal trucks, pilot, and fuel tank
- Metal frame

Remote Features:

- The "throttle" rotates to increase and decrease speed in both forward and reverse
- The red light at the top of the remote is a speed indicator; steady when in neutral and blinking faster as it accelerates
- Long range control, up to 60 feet
- Buttons for whistle sound, bell, and special announcements
- Multiple frequencies available, so multiple engines can run in the same layout at the same time
- LionChief locomotives can run on any Legacy , TMCC, or conventional transformer layout with 18 volts of power supplied to the track
- Requires three AAA alkaline batteries (not included)
- Special "Sleep" feature prolongs battery life
