### Description

The EMD F59PHI is a diesel-electric locomotive still hard at work on passenger trains in the United States and Canada. It was first built in 1964 by General Motors' Electro-Motive Division (EMD), and later by EMD's successor company, Electro-Motive Diesel. With its sleek streamlined design and distinctive detailing, our F59PHI is the perfect addition to your modern passenger railroad.

Navigates O-31 curves @6e Length 15.75 in. @6e Width 2.5 in. @6e Height 3.875 in.
