Description

One of the first successful AC traction motor-equipped locomotives, railroads nationwide purchased large numbers of the SD70MAC. Although most commonly found on coal trains and railroads with heavy grades where their slow speed performance was essential, the locomotives wandered into all sorts of services and locations. Mergers and sales have increased the variety of paint schemes worn by the thousands of SD70MACs still in service today. Lionel's latest run of this modern muscle includes some of these patched and repainted units along with the one of a kind BNSF merger scheme. Also for the first time, these locomotives are available with Bluetooth control and in two powered numbers and a SuperBass unit to really amp up the sounds as you put them in Run 8 on a heavy coal drag!

LEGACY® Control System equipped – able to run in LEGACY® Control mode, in TrainMaster Command Control mode, or in Conventional mode with a standard transformer

Bluetooth® Control - Operate with Universal

Remote or LionChief® App

Lionel Voice Control (LVC) - run your locomotive by speaking commands into your phone via LionChief® App

Odyssey® II Speed Control

IR Transmitter that works with LCS

SensorTrack™

Powerful maintenance-free motor with momentum flywheel

Wireless Tether™ connection between locomotive and tender

ElectroCoupler™ on rear of tender

Directional lighting including operating headlight and back-up light on rear of tender

Bi-color class/marker lights - Using a Legacy controller, change the color of the classification lights between white or green

Traction tires

Interior illumination in cab

Die-cast metal locomotive body, pilot, and trucks

Die-cast metal tender body and trucks

High level of separately applied metal details

Separately applied builder's plate

Synchronized fan-driven smoke unit

Fan driven stack smoke and whistle steam
Adjustable smoke output
Authentically detailed cab interior
Cab "glass" windows
Engineer and fireman figures
LEGACY® RailSounds® sound system featuring:
CrewTalk™ dialog with different scenarios depending on whether the locomotive is in motion or stopped
TrainSounds that mimic operating dialog when the locomotive is in motion or stopped
Six official railroad speeds with CrewTalk dialog
DynaChuff™ synchronized with 32 levels of intensity as the locomotive gains speed
LEGACY® "Real-Time Quilling Whistle" control with instant response for realistic signature "quilling" and correctly timed warning signals - 5 different whistles to choose from for a more customized experience
Single hit or continuous mechanical bell sounds - 5 levels of bell pitching for customized sounds
Sequence Control: plays the sound effects of an entire trip, including warning sounds and announcements, based on the movement and speed of the locomotive
Current speed and fuel dialog, coal or oil loading sound effects
Road number specific crew talk

PRODUCT SPECIFICATIONS

Rail Line: BNSF
Road Number: 9721
Gauge: O Gauge
Power: Electric
Engine Type: Diesel
Min Curve: O36
Dimensions: 19"
