Description Western Maryland Scenic's restoration of C&O 1309 has brought renewed interest and spotlight in the 2-6-6-2. The "Prairie Mallet" is easily overlooked by larger articulated monsters, but the 2-6-6-2 was an instrumental part of many rosters in the mountains of the east and west. Big enough to capture all the drama of an articulated steam locomotive, but small enough to handle sharper curves - the 2-6-6-2 might just be one of the best big locomotives for more compact O Scale layouts! Lionel's 2-6-6-2 tooling is based on the USRA design of 1918 used by the C&O and W&LE. While there are some differences between this and the 1309 as well as similar locomotives used on other lines, with the addition of some road-specific front-end details, this model really captures the essence of all these prototypes quite well. Add in our Whistle Steam and amazing sounds and you've got a great little big engine LEGACY® Control System equipped – able to run in LEGACY® Control mode, in TrainMaster Command Control mode, or in Conventional mode with a standard transformer Bluetooth® Control - Operate with Universal Remote or LionChief® App Lionel Voice Control (LVC) - run your locomotive by speaking commands into your phone via LionChief® App Odyssey® II Speed Control IR Transmitter that works with LCS SensorTrack™ Powerful maintenance-free motor with momentum flywheel Wireless Tether™ connection between locomotive and tender ElectroCoupler™ on rear of tender Whistle steam Directional lighting including operating headlight and back-up light on rear of tender Bicolor illuminated classification lights on the front of locomotive where applicable. Using a Legacy controller, change the color of the classification lights between white or green Traction tires Interior illumination in cab Die-cast metal locomotive body, pilot, and trucks Die-cast metal tender body and trucks High level of separately applied metal details Separately applied builder's plate Synchronized fan-driven smoke unit Adjustable smoke output Authentically detailed cab interior Cab "glass" windows Engineer and fireman figures LEGACY® RailSounds® sound system featuring: CrewTalk™ dialog with different scenarios depending on whether the locomotive is in motion or stopped TrainSounds that mimic operating dialog when the locomotive is in motion or stopped Six official railroad speeds with CrewTalk dialog DynaChuff™ synchronized with 32 levels of intensity as the locomotive gains speed LEGACY® "Real-Time Quilling Whistle" control with instant response for realistic signature "quilling" and correctly timed warning signals - 5 different whistles to choose from for a more customized experience. Single hit or continuous mechanical bell sounds - 5 levels of bell pitching for customized sounds Sequence Control: plays the sound effects of an entire trip, including warning sounds and announcements, based on the movement and speed of the locomotive Current speed and fuel dialog, coal or oil loading sound effects PRODUCT SPECIFICATIONS Rail Line: Denver & Rio Grande Road Number: 3302 Gauge: O Gauge Power: Electric Engine Type: Steam Min Curve: O54 Dimensions: Length: 26 1/2" Most Recent Catalog: 2023 Volume II Catalog
