Description Year after year, there always seem to be more special paint schemes for modern locomotives. But we've had so many requests for "normal" power we've decided to run some of these as well! Union Pacific's newest paint scheme is represented as well as contemporary companions from many of North America's largest railroads. With two powered and a SuperBass version available for each, you can build a typical consist or just back up your Heritage Fleet. Round two of our return of the Norfolk Southern Heritage roster features five popular ES44AC paint schemes representing all three branches of NS's heritage. Updated with PTC antenna arrays, locomotives are available in full LEGACY and nonpowered versions. And as NS is in the process of refreshing the paint on its fleet, CSX has now joined the party with their own! LEGACY® Control System equipped – able to run in LEGACY® Control mode, in TrainMaster® Command Control mode, or in Conventional mode with a standard transformer Bluetooth® Control - Operate with Universal Remote or LionChief® App Lionel Voice Control (LVC) - run your locomotive by speaking commands into your phone via LionChief® App Odyssey® II Speed Control IR Transmitter for SensorTrack™ Kinematic pilot for closer coupling on curves Dual powerful maintenance-free motors with momentum flywheels ElectorCoupler™ on front and rear Traction tires Refined Conventional Transformer Control mode with lower starting speeds Fan-driven smoke unit Adjustable smoke output Directional lighting including LED headlights Marker lights on front and rear Illuminated number boards Lighted cab interior Die-cast trucks, pilot and fuel tank Metal frame High levels of separately applied metal details Engineer and conductor figures LEGACY® RailSounds® sound system featuring: CrewTalk™ dialog with different scenarios depending on whether the locomotive is in motion or stopped TrainSounds that mimic realistic radio chatter when the locomotive is in motion or stopped Six official railroad speeds with CrewTalk dialog Eight diesel RPM levels LEGACY® "Real-Time Quilling Horn" control with instant response for realistic signature "quilling" and correctly timed warning signals 5 different horns to choose from for a more customized experience Single hit or continuous mechanical bell sounds 5 levels of bell pitching for customized sounds Sequence Control: Plays the sound effects of an entire trip, including warning sounds and announcements, based on the movement and speed of the locomotive Current speed and fuel dialog, refueling sound effects PRODUCT SPECIFICATIONS Rail Line: CSX Road Number: 1827 Gauge: O Gauge Power: Electric Engine Type: Diesel Min Curve: O54 Dimensions: Length: 19" Most Recent Catalog: 2024 Volume 1 Catalog
