### Description

Based upon a prototype structure of the Delaware & Hudson railroad, which was once used to house and service locomotives, this new structure is a styrene plastic kit molded in appropriate colors, so paint is not required. The sturdy construction features brick detail, opening doors, stalls spaced at 15 degrees, an office which can be positioned in multiple locations, two different styles of ventilators and modular construction.

- Approx. area required: 40" L x 40" W
- Stall track length from Turntable to rear wall to Roundhouse: 37.25"
- Roundhouse height: 9"
- Brick detail
- Opening Doors
- Stalls spaced at 15 degrees
- Office building can be positioned in multiple locations
- Two different Styles of ventilators
- Modular Construction
- Easily expandable up to 21 stalls
